Web Announcement 2239

## **M85.80 is a Valid ICD-10 Diagnosis Code; Denied Claims Have Been Reprocessed**

Update to [Web Announcement 1707](#): ICD-10 diagnosis code M85.80 (Other specified disorders of bone density and structure, unspecified site) was closed effective September 3, 2018. Upon further research the Division of Health Care Financing and Policy determined M85.80 is a valid diagnosis code. The code was reopened for billing effective with dates of service on or after March 19, 2020. Claims for code M85.80 with dates of service on or after September 3, 2018, and before March 19, 2020, that denied in error due to an invalid diagnosis code have been automatically reprocessed to adjudicate appropriately. Results of the reprocessed claims appear on remittance advices dated June 19, 2020.

Please note: When claims are reprocessed, please be aware that all system and clinical claim editor edits are applicable. As a result, there may be no additional payment, and other claim denials may be received. Providers have the right to appeal denied claims, including those denied upon reprocessing. Please refer to [Medicaid Services Manual Chapter 100](#) and the [Billing Manual](#) for information concerning the claim appeal process and time frames.
